Subject: Extension of BRP Revision Online Survey Period

Dear Governing Board Members,

Thank you to the many of you who filled out the online survey opened in advance of our last GB meeting in December. The feedback we received is very valuable to us and to the future direction of the Santa Monica Bay National Estuary Program. To facilitate greater input we're extending the close of this current survey period from last Friday January 12th to January 26th 2018.

The [weblink](#) to the survey is attached below. We hope this new deadline will allow for additional comments to be entered for consideration as we progress through the revision of the Bay Restoration Plan.
